CUMHURİYETİMİZİN 103. YILINI GURUR VE COŞKUyla KUTLADIK

Cumhuriyetimizin 103. Yılına Gurur ve Coşkuyla Kutladık

İDV Özel Bilkent Lisesi ve Ortaokulu olarak Cumhuriyetimizin 103. yılını, Gazi Mustafa Kemal Atatürk'ün bizlere bıraktığı mirasın bilinciyle, büyük bir gurur ve coşkuyla kutladık.

Cumhuriyet Bayramı törenimizde öğrencilerimiz, Cumhuriyet'in 1923'ten bugüne uzanan yolculuğunu sanatın, bilimin, eğitimin ve özgür düşüncenin ışığında sahneye taşıdı. Atatürk'ün öncülüğünde temelleri atılan çağdaş Türkiye'nin kazanımları; kadınların toplumsal yaşamda güçlenmesinden bilimsel gelişmelere, kültürden spora uzanan geniş bir perspektifle ele alındı. Öğrencilerimizin sözleri, sesleri ve sahnedeki duruşlarıyla Cumhuriyet'in yalnızca geçmişten devralınan bir miras değil, her yeni kuşakla yeniden anlam kazanan ve geleceğe taşınan bir değer olduğunu bir kez daha hissettik.

Bilkent'in özgür düşünen, sorgulayan, üreten ve sorumluluk alan bireyler yetiştirme anlayışıyla Cumhuriyet'in temel değerleri, bu anlamlı törende bir kez daha buluştu. Atatürk'ün gençliğe duyduğu sarsılmaz güven, öğrencilerimizin Cumhuriyet'e sahip çıkan güçlü seslerinde karşılığını buldu.

Başta Cumhuriyetimizin kurucusu Gazi Mustafa Kemal Atatürk ve silah arkadaşları olmak üzere bağımsızlık mücadelemizin tüm kahramanlarını saygı, minnet ve özlemle anıyor; törenimizin hazırlanmasında emeği geçen öğretmenlerimize ve öğrencilerimize teşekkür ediyoruz.

Cumhuriyetimizin ışığı, Bilkentli gençlerin ellerinde geleceği aydınlatmaya devam edecek.

Yaşasın Cumhuriyet!

GRADE 9 – ENGLISH LANGUAGE AND LITERATURE

In our current English Language and Literature unit, students are exploring the powerful themes of friendship, equality, prejudice and human dignity through Athol Fugard's play "Master Harold"...and the Boys. Set in apartheid-era South Africa, the play offers students an opportunity to reflect on the importance of kindness, respect and understanding in our relationships with others. As they read and explore the play, students are taking a closer look at the characters and their relationships, discussing meaningful moments in the story and discovering how the playwright uses dialogue, symbolism and dramatic techniques to convey emotions and important messages. Through lively classroom discussions and thoughtful analytical activities, students are sharing their perspectives, considering different points of view and reflecting on questions such as what makes a friendship meaningful and how prejudice can affect the way we treat others. Along the way, they are strengthening their reading, critical thinking and communication skills while developing a deeper appreciation of empathy, fairness and the value of treating everyone with dignity and respect.

My Person of Magnitude: Emma Watson

Emma Watson became a UN Women Goodwill Ambassador in 2014 and used her public platform to promote gender equality, particularly among young people.

Her biggest contribution was helping launch HeForShe, a UN women campaign that asks men and boys to actively participate in achieving gender equality rather than treating feminism as an issue only for women. UN Women has noted that Watson had already been involved in promoting girls' education and had visited Bangladesh and Zambia in connection with humanitarian work.

*Emma Watson had 100 copies Maya Angelou's Mom + Me + Mom around the London Underground so strangers could discover, read, and pass them on to others.

Resources: ABC News, UN Women

My Person of Magnitude:

Alan Turing was a British mathematician, computer scientist, and codebreaker. He is also considered one of the most important figures in the development of modern computer science.

During World War II, Turing worked at Bletchley Park, where British codebreakers were trying to understand encrypted German military communications.

This helped the Allies obtain important military intelligence during the war.

In 1936, Turing described a theoretical machine now called the Turing machine.

His ideas became fundamental to computer science.

My Person of Magnitude:

Muhammad Kemal Atatürk was a very important and magnitudinal person in Turkish history. He was the founder of the Republic of Türkiye and became its first president in 1923. He led the Turkish War of Independence and helped the Turkish people establish an independent country.

Atatürk also made many important reforms in Türkiye. He changed the education system, gave women more rights, and introduced new laws and social changes. His ideas had a lasting impact on Türkiye, which is why he is considered a person of magnitude.

GRADE 9 ENGLISH LANGUAGE ACQUISITION PHASE 3

In our first unit titled *The Journey Changes Us: Where and How We Live*, students explored how travel shapes the way we see the world and ourselves. Guided by the key concept of Culture and the global context of Orientation in Space and Time, students looked at how journeys connect us to new places, people and ways of life.

Throughout the unit, students built the language they needed to talk and write about their experiences. They expanded their travel vocabulary, practised using the past simple to describe completed events, and developed their reading skills by exploring a variety of travel articles. These texts served both as sources of inspiration and as models of how writers describe places vividly and share personal impressions.

To bring their learning together, students wrote short essays about attractions they have visited. Drawing on the vocabulary, grammar and reading strategies from the unit, they described the places, recounted what they did there, and reflected on what made each experience memorable. Their essays showed growing confidence in expressing their ideas in English, and it was a pleasure to travel along with them through their stories.

London Eye
1. I went to this fantastic attraction when I visited London with my family last September. It's called the London Eye. It's an enormous wheel that goes around and takes you up into the sky.
2. The ride was amazing! We were in a large glass cabin with about 20 people, but it was very comfortable. We could sit down or walk around to look out of the windows - the views were spectacular!
3. However, the attraction wasn't perfect. We bought tickets online in advance, but they were still expensive. On top of that, there were long queues and we waited 40 minutes to get on the wheel.
4. Our ride on the London Eye wasn't cheap, and it took ages to get on, but I'll never forget the experience. I recommend going on this incredible attraction, but you only need to do it once.

My Trip to Serbia
Last summer, I visited Serbia with my family. We travelled by plane. I was very excited because I wanted to see a new country. We stayed in Belgrade, the capital city of Serbia.
Belgrade is a beautiful and interesting city. There are many old buildings, parks, and shops. We walked around the city and took many photos. The weather was sunny and warm.
During our trip, we visited famous places and tried Serbian food. My favourite place was the city centre because it was very beautiful. We also went shopping and bought some souvenirs. I had a great time with my family.
I really enjoyed my trip to Serbia. The people were friendly, and the city was amazing. I learned new things about Serbian culture. I would like to visit Serbia again in the future because it was a wonderful experience.

1. I went to Antalya with my family last summer. We took a plane from Ankara. We stayed at a hotel near the beach. The weather was sunny and very hot. I was really excited because Antalya is a beautiful place.
2. Antalya was amazing! The sea was very clear and the beaches were wonderful. We spent a lot of time swimming in the Mediterranean Sea. There were also many palm trees and beautiful views. I loved the nature there.
3. During our stay, we did many activities. I played football and basketball with my family. We also went swimming and visited some historical places. The food was very tasty, especially the local dishes and fresh fruits. I really enjoyed drinking fruit juice and eating ice cream.
4. Overall, the trip to Antalya was one of the best experiences of my life. I had so much fun and I will never forget this holiday. I hope I can visit Antalya again someday.

My Holiday
Last summer, I went to Antalya with my family. We visited this beautiful city in July. We went there by car and stayed in a nice hotel near the sea. The weather was sunny and hot.
The holiday was amazing! We swam in the sea and played on the beach. The sea was very clean, and the water was beautiful. We ate delicious food and took many photos. I really enjoyed spending time with my family.
However, the holiday wasn't perfect. The weather was sometimes too hot, and the beach was very crowded. We had to wait a long time to find a good place to sit. Also, our hotel was a little far from the city centre.
Our holiday was very nice, and I will never forget it. I would like to visit Antalya again because I love the sea and the beautiful beaches. I recommend Antalya to everyone. It is a great place for a summer holiday!

I went to a great place when I visited Egypt with my family last year. We went to Sharm El Sheikh to do scuba diving in the Red Sea and go on an ATV tour in the desert.
The activities were amazing! The water was very clear, warm, and beautiful. We saw many colourful fish, and riding the ATV in the desert was super fun!
However, the visit was not perfect. We traveled on a boat for four hours to get to the dive site, and it made me feel very dizzy. Also, there were too many people on the boat.
The long boat ride was hard, but I will never forget this trip. I want to go there again to ride ATVs and swim with the fish!

Toprak Azıl
I went to datca with my family last summer. Datca is so spectacular place that everyone should go there at least once in his or her lifetime. It is located in the south Aegean Sea.
In my opinion Datca has got the best sea in turkey first of all the sea is so clean that you can see the sea's bottom. The weather is suitable for everyone especially for kids and old people because the humidity low.
The worst side of datca is the road because the roads has got so many curves.
I would like to go datca again because we had a lot of wonderful memories.

Kutay Alpsökmen My trip to Izmir
In 2024, I visited Izmir with my family during the summer holiday. Izmir is a beautiful city in the west of Türkiye. It is famous for its sea, beaches and nice weather.
I liked Izmir very much because the sea was beautiful and the weather was sunny. We walked near the sea and we saw many beautiful places. The city was very lively and there was many people outside.
But I didn't like the hot weather because sometimes it was too hot. Also, some places was very crowded, so it was difficult to walk.
I would like to go to Izmir again because I had a great time with my family. I want to visit more places and swim in the sea again. I think Izmir is a wonderful city for a holiday.

My Trip to Bolu
One year ago, I visited Bolu with my family. Bolu is a beautiful city in the northwest of Türkiye. It is famous for its forests, lakes, and mountains. We went to Abant Lake, which is one of the most popular tourist attractions in Bolu. Abant Lake is a beautiful natural lake surrounded by green trees and mountains. We visited this place last year during our holiday. The weather was cool, and the air was very fresh. There were many people enjoying nature.
What I liked most about Bolu was its peaceful atmosphere and beautiful scenery. We walked around the lake, took photos, and had a picnic. However, I didn't like the crowded areas and the cold weather. Sometimes, it was difficult to find a quiet place to sit. Overall, my trip to Bolu was a great experience. I really enjoyed spending time with my family and being in nature. I would definitely like to visit Bolu again because it is a relaxing and beautiful place.

Last year, I visited a photo museum with my school. It was a very fun and interesting experience. I went there with my classmates and teachers when I was in the 7th grade.
The photo museum was in Antalya. There were many different rooms, and each room had a different design. We could take funny, beautiful and interesting photos in these rooms.
My friends and I walked around the museum and explored all the rooms together.
My favorite room was the room with lots of mirrors. There were mirrors everywhere, and it looked amazing. We took many photos there and had a lot of fun. I also liked the other rooms because they were colorful and different from normal rooms.
However, I didn't like the crowds in some rooms. There were many students and visitors, so sometimes it was difficult to take good photos. We also had to wait for other people to finish taking

1. I visited this fantastic and historic place when I went to Çanakkale with my family last summer. It is called the Çanakkale Martyrs' Monument. Near the sea, it is a huge stone monument built to remember Turkish soldiers.
2. I really enjoy the visit. The memorial park was quite large, and there were many visitors, but it was still peaceful. Around the green gardens, we walked and read the names on the walls. The sea was very amazing and I really liked the view.
3. However, there were some things I didn't like. We bought our bus tickets from online before the trip but it was still expensive.

1. I went to Didim, Aydın, three years ago with my family. We went there in the summer for a holiday. Didim is a beautiful place in Turkey and many people go there in summer.
2. I liked the beaches the most, especially Atılkum Beach. The sand was beautiful and the weather was very nice. I enjoyed spending time on the beach and walking on the sand. I think Didim is a great place for a summer holiday.
3. However, I didn't like the sea very much. It was usually very rocky, and this made me uncomfortable. I wanted to swim, but the stones sometimes bothered me. Apart from this, I really enjoyed my holiday.
4. I would like to visit Didim again because I love the weather and the beaches there. It is a perfect

I really enjoyed in this travel and I stayed there for a month. I like about it my aunts house is next to London's biggest shopping mall (Westfield) if I want something I walked about 15 minutes and I get it. But the things in london very expensive this is bad.
And the londons people are very respectful no one is rude to other people. This is very good thing. And I didn't like about london it's very expensive but I like the turist attractions.
I went to the big ben tower in real name Elizabeth tower, london eye and the museums but museums doesn't clima and its very hot because lot of people come to see old things and I want to go again london bay bay.

1. Last year I went to Statue of Liberty in New York. I go there with my mom. The Statue is in a tiny island. Access to the Statue of Liberty was provided by ferry.
2. The statue was very nice. But the only you can do in there is taking photos and to look through brochures. The statue was in renovation so we cannot get inside of the statue.
3. The ferry ticket was cheap but the ferry was horrible. The ferry's cabin was so tiny and there was so many people that approximately 120 people on board. But there is no problem with the statue.
4. So the Statue of Liberty is an amazing attraction and also the ticket was cheap. If I can go one more time in New York thats destination I will go definitely.

Harry Potter Studio Duru İpek gül
My Harry Potter Trip
I went to studio in August 2023. It was in London. I visited with my dad. I was so excited to saw my favorite series in real life
When you entered first you sit and Sorting Hat decides your house. It has a lot of places to take photos. For example it was a broom and like in the book and movie when you say up it rises to your hand.
The things that I don't like is there was a scene were they made the dragon in the seventh movie comes from fog and roars. I got a little scared.
If I had a chance I would like to when they had a activity or the actors came but still I loved it

GRADE 9 LANGUAGE ACQUISITION PHASE 4

In our current English unit, students are exploring the themes of fairness, equality and inclusion through Lois Lowry's novel *The Giver*. As they follow Jonas's journey of discovery, they are examining how individual experiences shape our understanding of society, relationships and the importance of embracing differences. Through reading, discussion and critical reflection, students are considering thought-provoking questions such as whether treating everyone equally always means treating them fairly and how individuals can challenge injustice. Alongside their literary exploration, students are developing their understanding of narrative structure, storytelling techniques and the use of narrative tenses to communicate experiences effectively. Throughout the unit, they are encouraged to become more caring, open-minded and thoughtful communicators who appreciate the value of different perspectives.

GRADE 9 PHASE 5

Who Am I? Our Identity Quilt

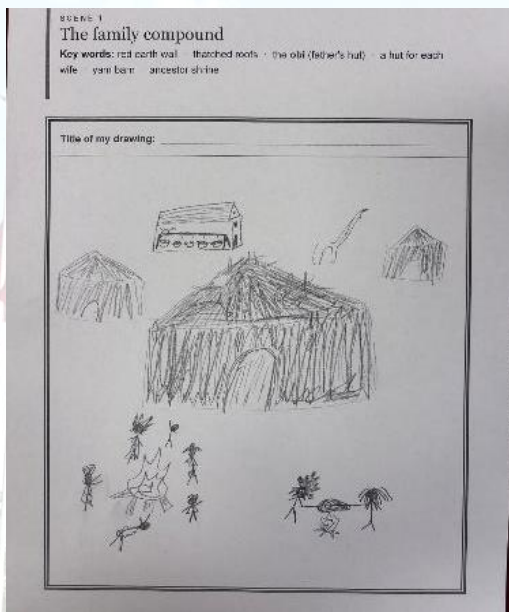

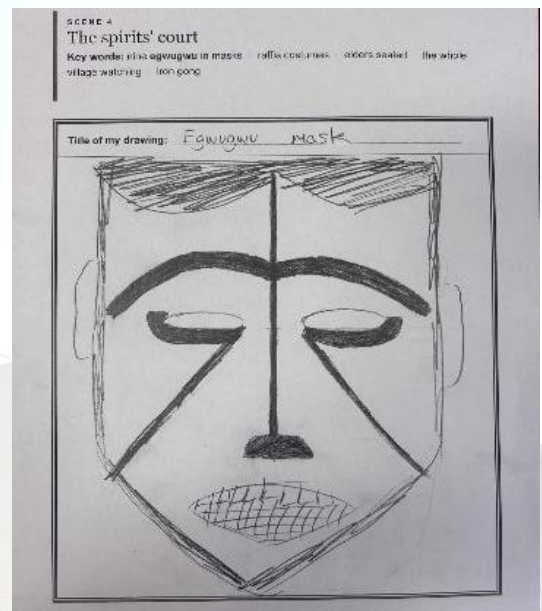

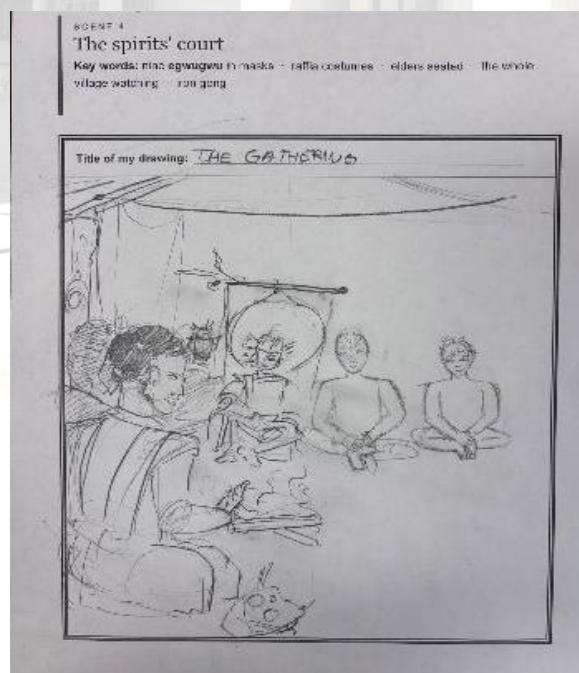

Just like a quilt is made of many different pieces stitched together, our identities are made of the people, places, objects and experiences that shape who we are. In our MYP unit on Identity, students designed their own identity quilts. Each student alternated between images (drawings or photographs) and written explanations, showing what each person, place or object means to them and how it has helped make them who they are today. Students then presented their quilts to the class, sharing their stories and listening to the stories of others. Every quilt is different, and that is what makes our class special. By sharing our stories, we learned that our differences make our community richer, and that there is always more to discover about each other.

GRADE 10 LANGUAGE & LITERATURE

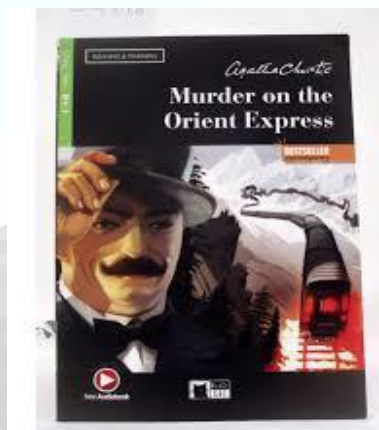

Sketching Umuofia: Stories of Igbo Culture

In our study of Chinua Achebe's *Things Fall Apart*, Grade 10 students stepped into the world of **Umuofia**, the Igbo village at the heart of the novel. Through their sketches, they brought to life the people, traditions, beliefs and places that shape Okonkwo's community, from the village gatherings and the egwugwu to family compounds, harvest festivals and the land itself. Each sketch shows how culture shapes identity and how Achebe gives a voice to a society that was often misrepresented in stories told from the outside. Achebe once said that until lions have their own historians, the story of the hunt will always glorify the hunter. Through these sketches, our students honoured the story of Umuofia, told from the inside.

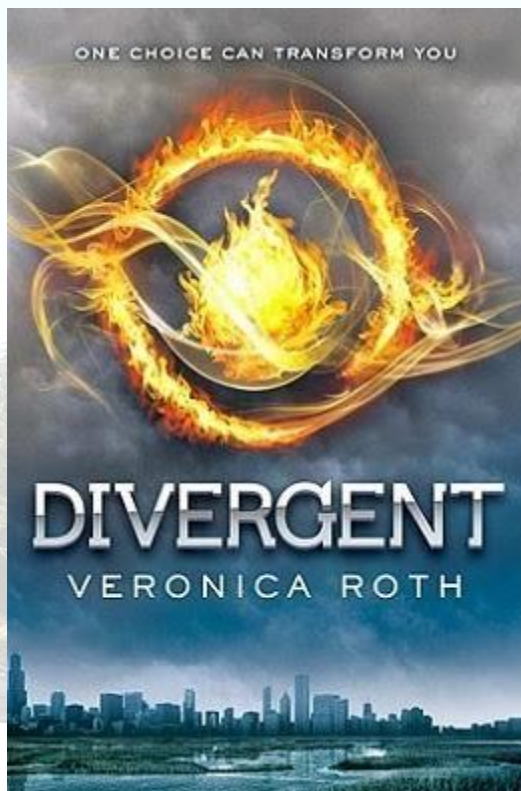

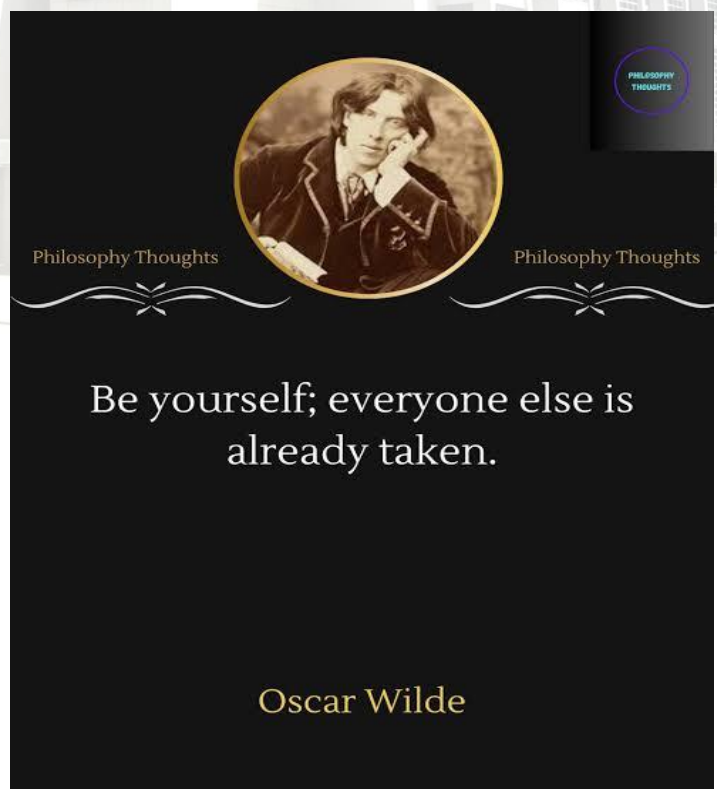

GRADE 10 PHASE 4 ENGLISH LANGUAGE ACQUISITION

Our Grade 10 students have been stepping into the exciting world of mystery and detective work in their first MYP English unit, *Clues Across Cultures*. Inspired by Agatha Christie's famous novel *Murder on the Orient Express*, students have been following clues, getting to know intriguing characters and exploring how language, culture and body language can shape the way we understand people and events. Along the way, they have traced the Orient Express route across Europe, discovered connections between different countries, cultures and languages, and expanded their vocabulary related to crime and investigation. They have also been developing their English language skills through storytelling, listening activities and grammar practice, while learning to express their ideas more clearly and confidently. As the mystery continues to unfold, our young detectives are putting their critical-thinking skills to the test by examining evidence, questioning assumptions and sharing their own theories about what really happened. Through this engaging unit, students are discovering that solving a mystery takes more than finding clues — it also requires curiosity, an open mind and an understanding of different perspectives.

GRADE 10 – ENGLISH LANGUAGE ACQUISITION PHASE 5

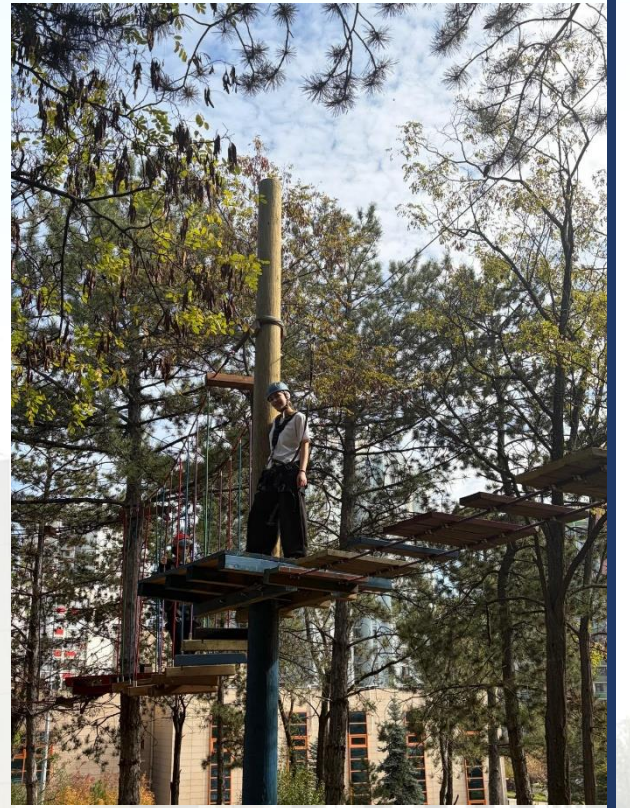

In our English Language Acquisition unit, *Is My Identity My Brand?*, students have been exploring the fascinating ways in which our identities are shaped by our surroundings, experiences and the perspectives of others. Through Veronica Roth's novel *Divergent*, they have examined themes of individuality, belonging, conformity and the courage to challenge society's expectations. As part of their learning, students have explored the defining characteristics of dystopian societies and made connections between the fictional world of *Divergent* and issues in the world around them. They have also completed a listening assessment based on a video exploring dystopian themes in popular culture, strengthening their ability to identify and interpret key ideas. In addition, students have put their analytical writing skills into practice by examining promotional posters for the film adaptation of *Divergent*, considering how visual elements and creative choices communicate messages about identity and belonging. Through these activities, students have developed their critical thinking, communication and analytical skills while reflecting on the importance of individuality, self-expression and staying true to oneself.

MACERA PARK GEZİSİ

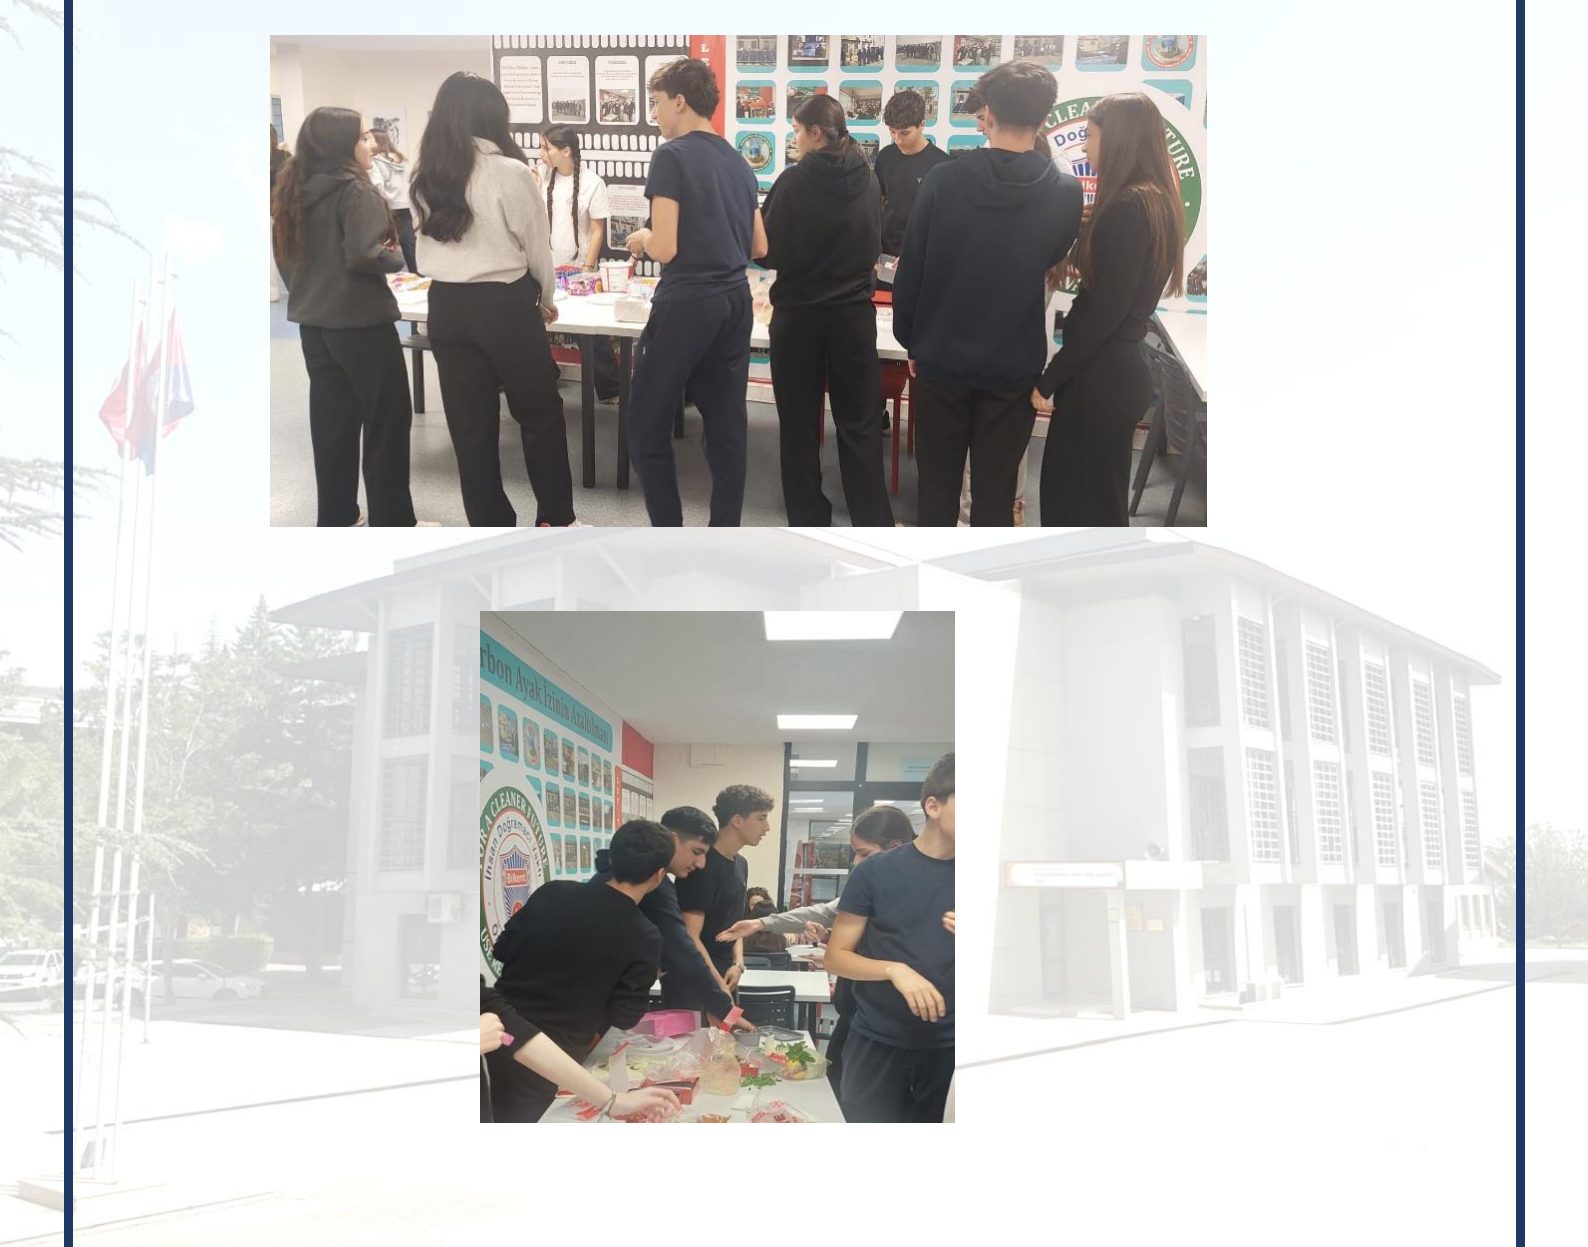

11. sınıf öğrencilerimiz, cuma günü Macera Parkı'nda heyecan ve eğlence dolu bir gün geçirdi. Zipline, tırmanma duvarı, dev salıncak, farklı parkurlar ve paintball gibi etkinliklere katılan öğrencilerimiz; kimi zaman cesaretlerini sınamak, kimi zaman da takım arkadaşlarıyla birlikte hareket ederek parkurları tamamlamaya çalıştı. Gün boyunca yaşanan tatlı rekabet, dayanışma ve kahkahalar geziye renk kattı. Öğrencilerimiz, okul ortamının dışında birlikte vakit geçirerek yeni deneyimler kazandı, birbirleriyle keyifli anlar paylaştı ve takım ruhunu pekiştirdi. Macera Parkı gezisi, öğrencilerimizin hafızasında güzel anılar ve unutulmayacak bir gün bırakarak sona erdi.

BİLKENT PAWS SOCIETY/ BİLKENT PATİLİ SEVERLER KULÜBÜ BAKE SALE ETKİNLİĞİ

Bilkent Paws Society (Bilkent Patili Severler Kulübü) olarak kampüs kedilerimizin ihtiyaçları için bir bake sale düzenledik. Elde edilen gelir; yağmurdan korunaklı mama kapları, mama ve aşı gibi temel ihtiyaçlarına ayrılacak. Etkinliğe emek veren tüm kulüp üyelerimize, destek olan öğrencilerimize ve bizden alışveriş yaparak kampüs kedilerimize katkıda bulunan herkese çok teşekkür ederiz.

ALİ AKTÜRK ÖZEL EĞİTİM UYGULAMA OKULUNA ZİYARET: FARKINDALIK YARATMAK İÇİN BİR ADIM

Özel gereksinimli bireylerin toplum içinde kendi kendilerine yetebilmelerine imkân sağlayacak davranışları kazanabilecekleri uygun eğitim öğretim ortamları oluşturmayı amaçlayan Ali Aktürk Özel Eğitim Uygulama Okulunu 11 DP öğrencileri olarak ziyaret ettik. Özel gereksinimli arkadaşlarımızla samimi ve üretken birtakım aktiviteler gerçekleştirdik. Bu okulu ilk ziyaretimizde özel gereksinimli çocuklarla tanışıp parkur yaptık. Okulun konferans salonunda okul hakkında bilgi edindikten sonra hep beraber magnet boyadık. Onlar için yapmış olduğumuz bileklikleri hediye ettik ve dans ederek günü noktaladık.

Ali Aktürk Özel Eğitim Uygulama Okuluna 11DP öğrencileri olarak yaptığımız ziyaret, bizlere özel gereksinimli bireylerin güvende hissettikleri okul ortamını görme ve onların sosyal hayata entegre olmasına nasıl katkı sağlayabileceğimizin örneğini birlikte yaptığımız çeşitli aktiviteler sayesinde görmemizi sağladı. Birlikte kaliteli vakit geçirerek iki tarafın da sosyalleşmesi sağlanmış olduk. Farklılıklara saygı duymanın ve bir toplum bilinci oluşturmağın değerini güzel bir okulda, farklı öğrenciler ile deneyimlemek hepimiz için kalıcı bir farkındalık kazanmamızı sağladı.
